ONE company, ONE team, ONE goal
constantly exceeding the expectations of our customers
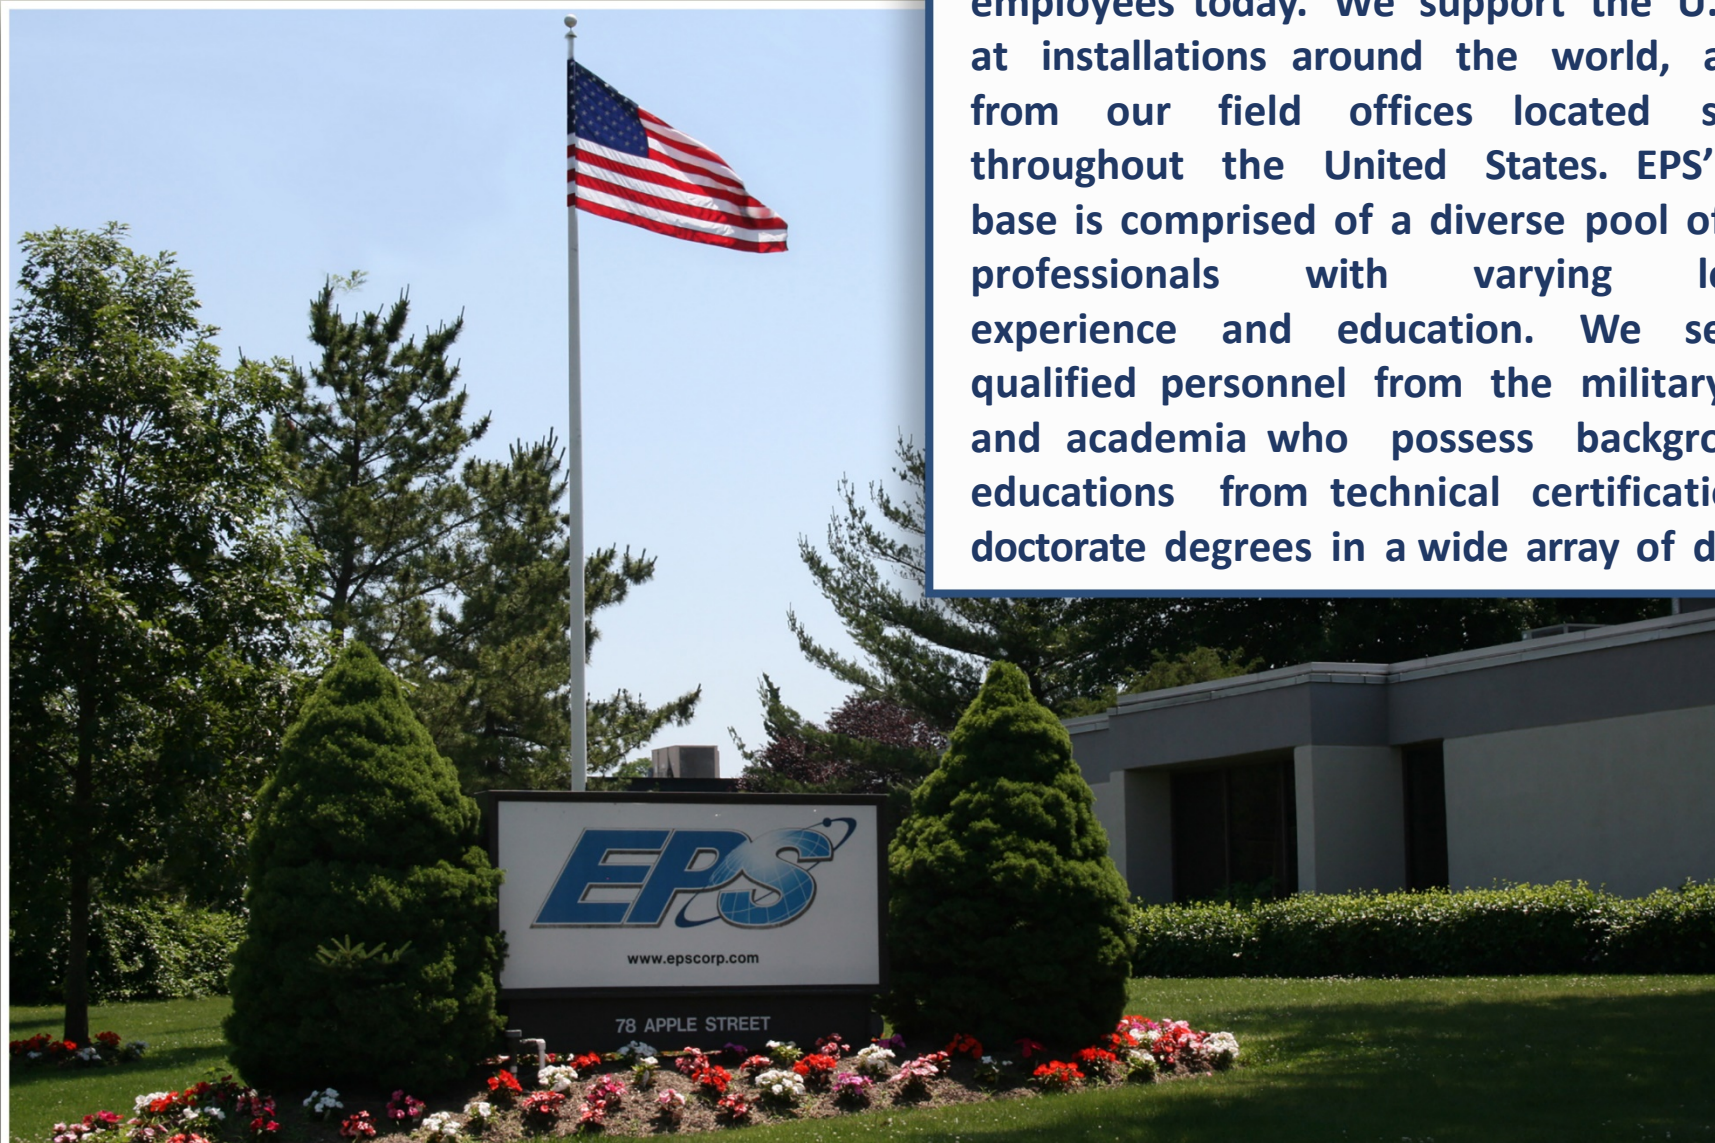

WOSB — SMALL BUSINESS ADMINISTRATION

ISO 9001:2015 CERTIFIED COMPANY

AS9100 REV. D

Microsoft GOLD CERTIFIED Partner

CMMI DEV/3℠ Systems and Software

EPS has grown from a one-person business in 1983 to a 20-year average of approximately 300 employees today. We support the U.S. Military at installations around the world, as well as from our field offices located strategically throughout the United States. EPS' employee base is comprised of a diverse pool of dedicated professionals with varying levels of experience and education. We seek highly qualified personnel from the military, industry, and academia who possess backgrounds and educations from technical certifications up to doctorate degrees in a wide array of disciplines.

Engineering Services Capabilities

Software & Information Management

Design Engineering

Cyber & IT Services

Logistics Support Services

EPS Corporation is a Worldwide Engineering Services Company

EPS prides ourselves on being a *'single entity'* company that provides a full spectrum of engineering, information technology, software and logistics support services to our commercial, military, and Government clients.

Each of our professionals have immediate and direct access to our corporate network which provides the in-depth execution support in our core competency technical disciplines.

EPS is committed as an organization to maintaining institutional certifications and partnerships that enhance the quality of the services we provide. Our certifications include:

- **International Organization Standardization (ISO) 9001:2015**

- **Capability Maturity Model Integration (CMMI) DEV appraised at Level 3 for Systems and Software**

- **AS9100D Quality Management Systems Certified for Aviation, Space, and Defense Organizations**

- **Microsoft Gold Certified Partner**

- **EPS also has both a DCAA approved accounting system and DCMA approved purchasing system**

EPS has been awarded over $500M in task orders under the following active prime contract vehicles:

- NAVY SEAPORT-e

- NAVY SEAPORT-NxG

- AIR FORCE NETCENTS-2 NETOPS SB

- ARMY CECOM RS3 SB

- GSA MULTIPLE AWARD SCHEDULE (MAS)

- GSA CONNECTIONS II

- ARMY CECOM FOREIGN MILITARY SALES (FMS)

EPS is a Small Business and WOSB under North American Industry Classification System (NAICS) codes 517311, 517312, 334111, 334511, 541715, 511130, and others.
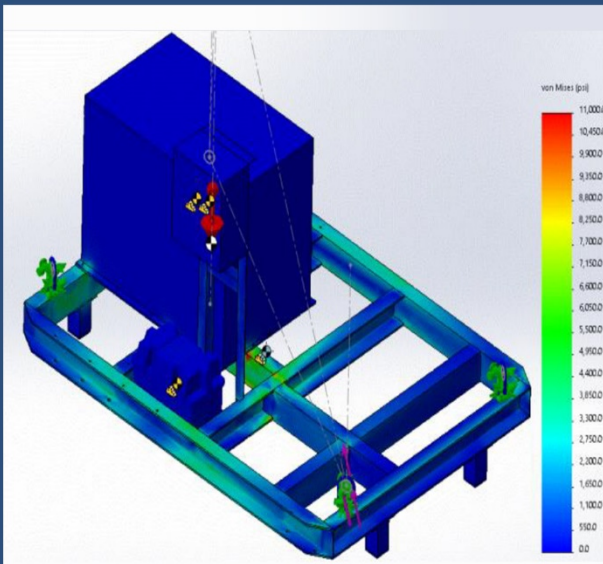

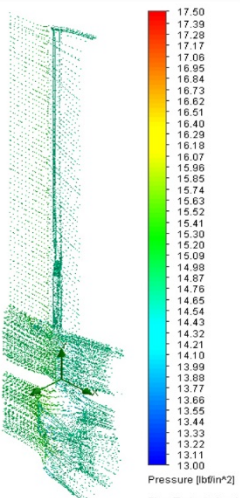

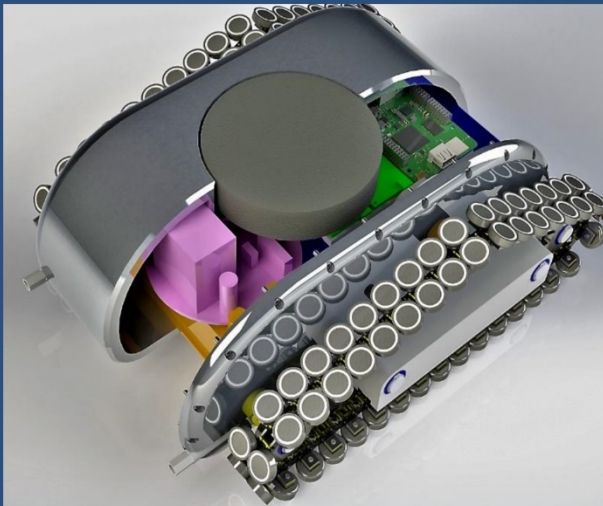

EPS provides full spectrum design engineering services from concept to fielding for Government and commercial customers. Our personnel are skilled in all engineering disciplines, including:

- **Systems Engineering**
- **Simulation Engineering**
- **Research & Development**
- **Test & Evaluation**
- **Rapid Prototyping**

We provide the full spectrum of simulation capability including Finite Element Analysis (FEA) and Computational Fluid Dynamics (CFD).

Our experienced scientists and engineers specialize in Magnetics, Physics, Acoustics, RF/SHF Communications, Tactical Networking, C4I Systems development, operation and maintenance, and Signal Processing.
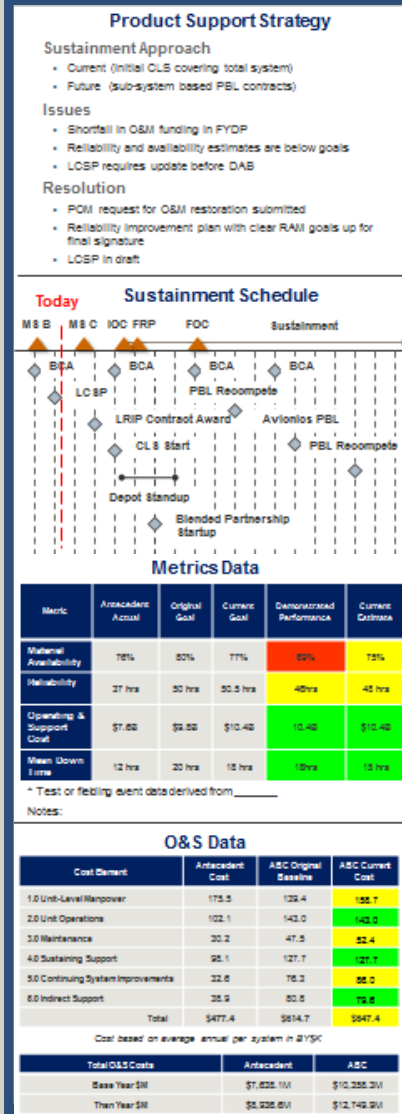

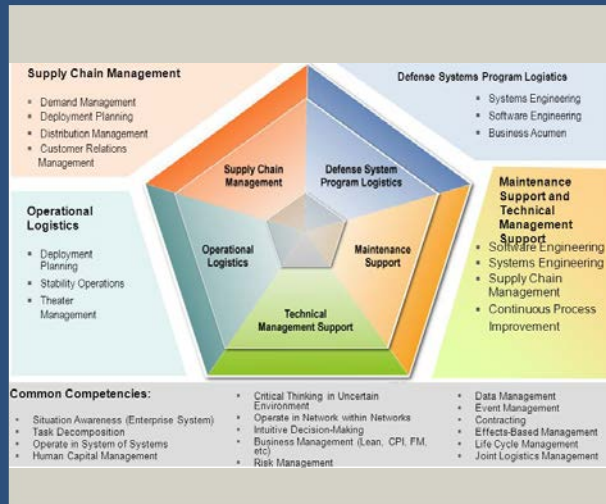

EPS professionals are experienced in a variety of engineering tools including MATLAB, Solid Edge, and Solid Works.

EPS provides the full suite of Logistics Support Services that fit a variety of customer needs. This support includes:

- **Maintenance Planning**
- **Reliability Centered Maintenance (RCM)**
- **Logistics Supportability Analysis**
- **Supply Support**
- **Manpower**
- **Technical Documentation, including TMs, ETMs and IETMs**
- **Training - New Equipment Training (NET), Technical (IA, Cybersecurity, Networks) and Standards (SGML, XML, MIL-STD) Training**
- **Packaging, Handling, Storage & Transportation**
- **Support / Test Equipment**
- **Foreign Military Sales (FMS) Support**
- **Mobilization/Demobilization**
- **Day-to-Day Support Operations**

EPS provides a wide-range of IT Services. These services/support include:

- **Network & Communications Support**
  - Network Operations Center Support
  - Network/System Administration and Application Solutions
  - Network Infrastructure: ISP/OSP
  - Classified (SIPRNet, CENTRIX, JWICS) and Unclassified (NIPRNet, NGO) domains
  - Enterprise communication design and installation, including RCDD certified design
  - Military tactical network design and installation, including RF/SHF/UHF/HF/VHF/EHF based systems and SATCOM solutions
- **IA / Cybersecurity**
  - RMF and DIACAP accreditation
  - DoD 8570.01 IAM and IAT certified professionals
- **Service / Help Desk**
- **Enterprise Process Re-Engineering**

Our experience includes software development for a broad spectrum of military applications to include mine warfare, ISR, C4I, imagery analysis, missile defense, counter IED, robotics, Interactive Electronic Technical Manuals (IETMs) and enterprise data management.

Software Development and Information Management (IM) are core EPS strengths. We provide the expert resources and personnel to deploy solutions that increase productivity and operational agility for our customers.

We specialize in:

- **Software Design, Development and Implementation**
- **Agile Software Development Methodologies**
- **Web and Collaboration System Support**
- **Content Management Systems (CMS)**
- **Interactive Electronic Technical Manual (IETM) Applications**
- **Technical Documentation Specifications and Standards**
- **Extensible Markup Language (XML), Standard Generalized Markup Language (SGML) and Hypertext Markup Language (HTML) Applications**
- **Functional Requirements Analysis**
- **Activity and Process Modeling**
- **Learning Management Systems (LMS) and Learning Content Management Systems (LCMS)**
- **Data Conversion**
